TROPICAL CYCLONE BULLETIN NR. 16
Tropical Storm PILANDOK (KROVANH)

Issued at 5:00 AM, 03 September 2026
Valid for broadcast until the next bulletin at 11:00 AM today.

PILANDOK SLIGHTLY ACCELERATES NORTHWESTWARD AND IS ABOUT TO EXIT THE PHILIPPINE AREA OF RESPONSIBILITY.

Location of Center (4:00 AM)

The center of Tropical Storm PILANDOK was estimated based on all available data at **1,030 km East Northeast of Extreme Northern Luzon (25.0°N, 130.8°E).**

Intensity

Maximum sustained winds of **75 km/h** near the center, gustiness of up to **90 km/h**, and central pressure of **992 hPa**

Present Movement

Northwestward at 20 km/h

Extent of Tropical Cyclone Winds

Strong to gale-force winds extend outwards up to **600 km** from the center

TROPICAL CYCLONE BULLETIN NR. 16
Tropical Storm PILANDOK (KROVANH)
Issued at 5:00 AM, 03 September 2026
Valid for broadcast until the next bulletin at 11:00 AM today.

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT
No Wind Signal is currently hoisted

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook
Refer to **Weather Advisory No. 46 issued at 5:00 AM today** for the heavy rainfall outlook due to the Southwest Monsoon.

Severe Winds
The Southwest Monsoon will bring **strong to gale-force gusts** over the following areas (especially in coastal and upland areas exposed to winds):

- **Today until Saturday (05 September):** Most of Luzon and Visayas, Zamboanga del Norte, Misamis Occidental, Lanao del Norte, Misamis Oriental, Camiguin, Dinagat Islands, Davao Occidental, and Davao Oriental.

HAZARDS AFFECTING COASTAL WATERS

A Gale Warning is in effect over the seaboards of Extreme Northern Luzon. For more details, refer to Gale Warning No. 5 issued at 5:00 AM today.

24-Hour Sea Condition Outlook

Up to very rough seas over the following coastal waters:

- **Up to 4.5 m**: The western and southern seaboards of Batanes; the western seaboard of Babuyan Islands.
- **Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

Up to rough seas over the following coastal waters:

- **Up to 4.0 m**: The remaining seaboards of Batanes; the northern seaboard of Babuyan Islands; the seaboards of Ilocos Norte; the seaboard of northern Ilocos Sur.
- **Up to 3.5 m**: The remaining seaboard of Ilocos Sur; the seaboards of La Union and Zambales; the western seaboard of Pangasinan.
- **Up to 3.0 m**: The remaining seaboards of Babuyan Islands; the western and southern seaboards of Bataan; the northern and western seaboards Lubang Islands; the western seaboards of Cavite, Batangas, northern Occidental Mindoro, Calamian Islands, and Kalayaan Islands.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m**: The seaboards of southern Isabela, northern Aurora, Surigao del Sur, and Davao Oriental; the western seaboard of northern Palawan; the northern seaboard of Calamian Islands; the remaining seaboards of Kalayaan Islands, Occidental Mindoro, and Pangasinan.
- **Up to 2.0 m**: The seaboards of Cagayan, Romblon, Cuyo Islands, Cagayancillo Islands, and Antique; the southern seaboards of Quezon, Marinduque, Camarines Sur, Iloilo, and Guimaras; the eastern and southern seaboards of Oriental Mindoro; the western seaboard of southern Negros Occidental; the remaining western seaboard of mainland Palawan; the remaining seaboards of Occidental Mindoro.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

Other coastal waters have forecast wave heights of less than 2.0 m.

BAGONG PILIPINAS

TROPICAL CYCLONE BULLETIN NR. 16
Tropical Storm PILANDOK (KROVANH)
Issued at 5:00 AM, 03 September 2026
Valid for broadcast until the next bulletin at 11:00 AM today.

TRACK AND INTENSITY OUTLOOK
• **It must be emphasized that heavy rainfall and severe winds may still be experienced in localities outside the landfall point and the forecast confidence cone. Refer to "Other Hazards affecting Land Areas" for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.** • PILANDOK is forecast to exit the Philippine Area of Responsibility (PAR) this morning. Outside the PAR, this tropical cyclone will continue moving generally northwestward towards southern Japan. Beginning tomorrow (04 September) until Sunday (06 September), it will remain almost stationary then move generally southward, looping over the area of Okinawa-Amami islands. By Monday (07 September), it will move generally southeastward before turning northeastward by Tuesday (08 September). • PILANDOK is forecast remain as a tropical storm throughout the entire forecast period.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 AM today.
